ELECTION RETURNS.

Grant And Coifax Elected.

DEFEAT OF DONNELLY.

WILSON ELECTED

The smoke of battle has cleared away and left the radicals master of the field. Grant and Coifax are duly elected President and Vice do, for the ensuing 4 years from the fourth of March next. The radicals carry the following States: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, Minnesota, Nebraska, West Virginia, a total electoral vote of 151.

Exclusive of Virginia, Mississippi and Texas, the electoral College will consist of 294 members, of which 148 are a majority. The election of Grant and Coifax is therefore assured, and their electoral votes will doubtless be increased by the addition of other States, California, Nevada and several other States being claimed by them.

New York has gallantly sustained the great statesman from that state, and gives Seymour and Blair 8,000 majority. Illinois is elected Governor by 25,000 majority. The Legislature is in session. Kentucky, Maryland, Delaware, New Jersey, Oregon, Georgia, Louisiana and Alabama have gone Democratic.

Minnesota, the radicals carry by 12,000 majority, and elect Wilkinson to Congress from the 1st District by 6,000 majority.

Capt. E. M. Wilson, the Democratic nominee is elected to Congress from the 2d district by 1,500 majority over Donnelly and 2,200 over Andrews.

The Democrats of Minnesota cannot complain as long as they have a Senator and a Representative in Congress, a half representation in the National Congress from a radical state.

ROSCOE'S.

Roscoe writes to the New York Times: "Please correct an error, into which your Washington special has fallen, in saying that Gen. Rosecrans does not intend going to Mexico because he thinks Gen. Grant will be his next President. He never thought of being influenced by such a motive. He was not nominated as a partisan, nor confirmed as a partisan; neither his reluctance to accept, nor his acceptance, arose from motives, nor does he accept to win as a partisan. He will go as an American citizen, who loves his country and her institutions, to a neighboring nation, in whose welfare he has always felt a deep and sincere interest—an interest, he feels happy to know which is shared by the great body of our people. Gen. Grant among the number."

A Secret of Youth

There are women who cannot grow old, women who, without any special effort, remain always young and attractive. Their number is smaller than it should be, but there is sufficient number to mark the wide difference between his class and the other. The secret of this perpetual youth lies not in the beauty, for some women possess it who are not at all handsome; nor in dress, for they are frequently careless in that respect, so far as the mere arbitrary dictates of fashion are concerned; nor in having nothing to do, for those ever young women are always as busy as bees, and it is very well known that idleness will fret people into old age and ugliness faster than overwork. The charm, we imagine, lies in the sunny temper—neither more or less—the blessed gift of always looking on the bright side of life, and of stretching the mantle of charity over everybody's faults and feelings. It is not much of a secret, but it is all that we have watched with such great interest, and a determination to report truthfully for the benefit of the sex. It is very provoking that it is something which can not be copied and sold for fifty cents a bottle; but this is impossible, and is why the most of us will have to keep on growing old and ugly and disagreeable as usual.

A "honeymoon car" is to be placed on the Pacific Railway, when completed, for the benefit of bridal parties.

LOVE AND LAUDANUM.

A Romance in Real Life—Unsuccessful Attempt by a Young Lady to Commit Suicide.

CINCINNATI, Dec. 29.—A young and beautiful girl, whose mother resides on Central avenue, No. 348, named Bettie Keckler, made a determined attempt at self-destruction to-day, by swallowing a large dose of laudanum. The cause of the rash act was the determined opposition of her mother to Bettie's intimacy with a certain young man, who has, for some time past, been paying her the most devoted attention. The mother, for some reason, conceived a strong dislike for her daughter's lover, and in consequence forbade him the house, and Bettie and again persistently ordered Bettie to avoid his society. After swallowing the laudanum, she informed her mother what she had done, and soon after relapsed into a state of unconsciousness. A physician was sent for at once, who, upon arriving, immediately applied the stomach pump, and administered an antidote, which had the effect of reviving the girl, but so deep a hold had the poison taken on her system, that it is probable that she will die from its effects.

PERU.

NEW YORK, Oct. 30.—A Lima letter states that the Attorney General has published an opinion in relation to the claims of a French resident in Lima, who has lost his property by a mob of rioters in January, to the effect that foreign citizens can only recover by process of law, in the same manner as Peruvians themselves. Gen. Dorey, the American Minister, immediately entered a protest against this opinion, and his example has been followed by the English, French and Prussian representatives.

HAYTIAN WAR.

St. DOMINGO, Oct. 30.—A fight has taken place in Jaislen, 200 Provincials attacking 16 government troops with cries of *rien de Noire*. A letter from Hayti conveys the former reports of the bombardment of Jeremie. The revolt of the women and the indignation of the people at the assistance given Salavie by the Americans is great.

John Magill, a city official of Troy, N. Y., went down into a sewer there last week to inspect the work. The earth on each side suddenly gave way, burying him up to the armpits. His head was erect, and he was able to breathe. His cries attracted the attention of his employees, who became panic-stricken, rushed from their work, and reported the occurrence to the officers on duty at the station house. Lights were quickly procured, and, on being lowered, Mr. Magill's head was seen just above the surface. The banks were liable to close at any moment, and it required a man of nerve to descend. The work of shoveling the earth away was carried on cautiously, guard against the caving in of the exposed sides. A few minutes before 9 o'clock his rescuers accomplished their task, and one of their number brought him on his shoulders to the surface, to the bounded joy of thousands of citizens who were attracted to the spot. The sufferer was perfectly helpless, his extremities being numb and lifeless.

The Lake Superior and State Line Railroad.

The Lake Superior *Gazette* publishes the following statement relative to the re-organization of the Superior and State Line Railroad Company: "The new Board of Directors of the Superior and State Line Railroad Company recently organized itself by the choice of the following officers: Jas. Stinson, President; P. P. Wintermute, Vice President and Treasurer; J. W. Gates, Secretary; James Stinson, Hiram Walbridge and P. P. Wintermute, Executive Committee."

The route of this road as laid down for the first twenty miles from Superior indicates Crow Wing as its objective point on the Mississippi; but the line tends also in the direction of Sauk Rapids.

These two places are about 50 miles apart, and distant from Superior 135 and 115 miles, respectively. Whichever shall be the road first built, it must be acknowledged that each secures a much needed and most valuable communication between Lake Superior and its tributary country, a consummation which the increasing population and production of the region demands already.

The new Spanish Ambassador to Washington is to be Senator Manrico Lopez Robertson, one of the most active promoters of the revolution and a distinguished member of the Union Liberal party. He has great experience; has visited most of the countries of Europe and America, and has passed a good deal of his time in New York.

The Washington Mills, at Lawrence, Mass., were damaged nearly \$40,000, by fire, on Tuesday morning.

HOME ITEMS.

HERALD AGENT CARVER—G. A. DuToit.

Time Table of M. V. R. R.

The following indicates the time for the arrival of trains at Verriem Station: Up Trains, 8:45 A. M., 1:15 P. M., 6:15 P. M. Down Trains, 9:25 A. M., 3:15 P. M., 8:15 P. M.

A Trip Through The County.

We had occasion last week, to make a "round" of the County, and on the way noted down a few "incidents" as they occurred to us.

WACONIA.

We first brought up at this point, and made our "stay" for the night at Bernfield's Hotel, where we were well cared for by its gentlemanly proprietor. In the evening we participated in a political meeting. The Democracy of that town turned out in large number to hear Col. Baxter, John Korker and Fred Du Toit discuss the issues of the day from a Democratic standpoint. The meeting was enthusiastic. Waconia is daily growing in importance, and will some day be an important inland town. Business was very good considering the price of grain.

WATERTOWN.

This live town came next under our observation. Her streets were thronged with teams, and everything indicated a healthy state of prosperity. Her merchants, Lewis, Cullen, Barrett, Barth & Roush are doing a "rushing" business. Watertown has probably improved more, within the past year, than any town in the County. Here also the sturdy Democrats of Watertown and Hollywood assembled to hear speeches from the same gentlemen that spoke at Waconia.

HOLLYWOOD.

We passed through this almost unpopulated agricultural town in the County, and noted with pleasure the activity of her farmers. We had the pleasure of stopping at Commissioner Kelly's, and return our thanks to himself and lady for a most hospitable reception.

YOUNG AMERICA.

Thursday evening found us at Fabel's Hotel, well cared for by the gentlemanly landlord. It is village has also made wonderful progress within the past year. It has one of the best Grist and Saw Mills in the county, belonging to the Messrs Ackermans. It has also a number of good substantial stores. Shewan, Roush and Ackerman's taking the lead. Here also was held an enthusiastic meeting.

BENTON.

Our trip was completed at this place. Here we had little time to look about, yet the improvements of the past year, almost astonishing. Benton is now a village. It has a fine Grist and Saw Mill owned by Caspar Kronschnabel, a wagon shop, store, hotel and other necessities in a good, wealthy community such as Benton.

A QUACK DOCTOR IN LIMBO.—On

Wednesday the 4th inst., one Joseph Grammer, hailing from Minnetrista Hennepin County, was arrested and brought before J. A. Sargent Esqr. charged with having abused one Ophelia Himel while treating her medically. He claimed to be a Doctor of the *magical persuasion*, whose forte was in curing all kinds of diseases by the laying on of hands, but Miss Ophelia made a serious objection to be treated medically in that most modern style, and immediately made complaint against the old rascal and had him arrested.

The evidence upon the trial was of such a character as to create a vast amount of side splitting laughter, and drew a large audience.

The old fellow seemed highly indignant at the idea that courts should interfere with his *regular practice*, but notwithstanding in default of twenty dollars fine he was sent to Jail for thirty days.—We have since heard that he has paid his fine and left the County.

THE ELECTION.—The election in our

village passed off quietly. No disturbances of any kind on "record." As far as we are informed it passed off as quietly throughout the County.

BLOWN OVER.—The storm last

Friday blew down the smoke stack of the Steam mill, which caused a suspension of work for a couple days.

SHIPMENT.—The Chaska Mill, ship

weekly large amounts of flour, to eastern market.

CARVER COUNTY ELECTION.

A Light Vote Polls.

The returns from the different towns of the County are not all in, but indicate a majority for Seymour and Blair of 180, and for Col. Baxter for the Legislature of 500, and Peter Weego, Auditor of 600. Wilson has a plurality over Donnelly of 450, and of 550 over Andrews.

The congressional contest brought out every radical voter in the county, while the returns show, that at least 350 Democrats abstained from voting. In Benton and Chanhassen alone over 150 democratic voters stayed away from the polls, and in other towns from 15 to 20 remained at home. Carver County is democratic to the very core. Grant's popularity had great effect upon the mind, and was without doubt the cause for so much apathy on the part of Democrats.

We will publish the official canvass in our next issue. Baxter and Weego's majorities will certainly reach the figures given above, and probably Seymour and Blair will reach 200. Wilson will have a plurality of 450 over Donnelly.

A LOUD CALL.—Our sanctum was

invaded by those "two good fellows," Capt. Lambert of Carver and Dr. Northrup of Jordan, Seat' Co., this week. They came around to "revive" our drooping "spirits" which were "depressed" since last Tuesday. Come again Gents.

ACCIDENT.—A little boy of our town,

name unknown to us, fell while carrying a box striking upon the edge with his arm inflicting a very severe cut. Dr. Donohoe dressed the wound, and reports the boy as improving rapidly.

RAW.—The weather is quite raw,

and indicates the next approach of winter. Great many are busy, preparing for the coming cold snap, making the cellars warm &c.

CARVER ITEMS.—We hope that our

Carver Correspondent, will next week, send us his usual "batch" of items. Our columns look dreary without them.

HARPER'S BAZAR.—The prospectus

of this great fashion weekly will be found upon our 4th page. The Bazar contains weekly beside numerous engravings, articles of literary merit, which especially renders it adapted to the family circle. Single copy one year \$4.00. One copy of the Bazar and Herald for \$5.00. See terms etc., in prospectus on 4th page.

GRAIN.—There has been a material

decline in the price of wheat throughout the country. It now only brings 70 cents per bushel in our village, with no visible appearance of a rise.

Barley, nevertheless, brings \$1.30 per bushel, figures that are certainly encouraging to the farmers. Corn and Oats also bring good prices.

New Goods.—Young, Faber and

Warner have each received a large assortment of Fall and Winter Goods. Call at their large emporiums and purchase your winter's supply.

COMPENDIUM OF KNOWLEDGE.—What

a compendium of human knowledge is this indispensable work. Webster's Unabridged Dictionary, Illustrated. For comprehensiveness, completeness and accuracy of definition, it stands unrivaled, and is, in all respects, the greatest literary work every produced in America, worthy of a place by the side of the Bible in every household in the land. The medal granted the superb work at the Great Exhibition last year was richly merited, both through the value of the work itself and the patriotic energy of Messrs. Merriam, who sent there a superbly bound copy of the dictionary, which is considered throughout the continent, as it is in America, the only correct authority of the English language.—Field & Form.

—Why stand you thus amazed? To

see a person of your natural beauty with a head of dry, bristling, unkempt hair! Go purchase a bottle of "Baret's Vegetable Hair Restorative." I will transform your hair into beautiful glossy ringlets. Nothing so efficacious has ever been offered to the public. G. A. Du Toit, agent Carver.

IT VANISHES AWAY.—Do our

readers all understand that the genuine Chemical Saleratus, made by D. B. De Land & Co., is never eaten. In the process of baking it all evaporates leaving the bread light and pure. It has been imitated but the counterfeiter is not easily disposed of. Use it instead of Soda. It weighs 16 ounces to the paper; others weigh 14 oz.

HOOFLAND'S

GENUINE
OREIDE WATCHES.

This expedition, discovered twenty years
ago by the Indians and by constant applica-
tion has resulted in producing a watch of ex-
traordinary accuracy and beauty, and of ex-
traordinary value and appearance. It is every respect
equal to gold.

The Cases of the Watch are made of steel, and
are made of the finest material, and with the
finest workmanship, and are of the same quality
as the gold cases.

They have a full and complete lever me-
chanism, and are of the same quality as the
gold cases for \$10.00 and upwards.

We will sell them at the following prices:
No. 1. Large and Medium size, full jeweled,
patent lever, with Case to match, \$25.00
Ladies size, full jeweled, patent lever, with
elegant Leaning Chain to match, \$20.00
Ladies size, small size, (very handsome), with chain
to match, \$15.00
To parties purchasing a case containing
six watches, we will give a liberal discount.

677 The genuine can be pur-
chased only through us or
our authorized agents.

The Valley Herald

Official County Paper.

BY P. E. DU TOIT.

CHASKA, FRIDAY, NOV. 13, 1868.

Election in Minnesota.

We publish on our third page, inside, the general result of election by States, giving both the majorities and the Electoral vote to which we refer our readers for information relating thereto.

The radicals have carried Minnesota by 12,000 majority, including negro suffrage by 6,000. Wilkinson is elected to Congress from the 1st District by 7,000 majority. In the 2d District Cap. E. M. Wilson, Democrat, is elected to Congress by 2,000 majority over I. P. Donnelly and 3,500 over C. C. Andrews.

The Republicans have a large majority in both branches of the Legislature. We are fully satisfied with the result in this State. We have elected a gallant Democrat to Congress, thus dividing our delegation in Congress, and securing a representative of our interests in Washington. A man who will not neglect the interests of his constituents in order to advance his own personal ends. What more could we ask?

The winding proposition of the Legislature in regard to the State Lands, have not their just dues—an overwhelming defeat. Also the Jury proposition. Carver County has a clean record on both of these propositions.

Wheat at 70 Cents a Bushel—The Tremonts For a Government Bonds.

The New York dispatches indicate a decline in the stringency in the money market. Instead of being relieved, it is tightening up, and prices of everything are going down, down, down.

Government bonds that were 113 a week ago are 107 now. Milwaukee & St. Paul R. R. stock that was 104, is 73. Erie, that was 73, is 39. Everything has fallen in proportion.

The rumour decline is not confined to stocks. Wheat is the greatest sufferer; the farmers, as usual, are the first that are hit most severely, and are the last to recover. Wheat is worth not over 70 cents a bushel. This begins to look like something worse than a "crisis," but may it prove nothing worse?

The Minneapolis Tribune has taken up the subject of the hard times that are closing in so portentously, and proposes as a remedy a free banking system. So brief a period explodes radical pretense and hypocrisy. Previous to election it was rank dishonesty to doubt the perfection of the present National banking system. Now, with the echoes of radical rejoicing still vibrating in the air, a leading "loyal" newspaper organ protests that we must have free banking, in order to save the business interests of the country from total ruin. Such is the preposterous inconsistency of the advocate of radical ideas.—Pioneer.

Thanksgiving.

The Governor has recommended by proclamation, that Thursday the 26th of November be observed as a day of public prayer and thanksgiving. So prepare your fatted Turkeys for said day and feast yourselves.

New York Panic.

Special dispatch to the Evening Post. NEW YORK, Nov. 6.

There is a tremendous excitement and panic raging in Wall street. Indeed there has been nothing like it since 1837, and it is feared it will be attended with similar results. An immense depreciation of values is anticipated and heavy failures are momentarily expected.

The excitement on Wall street today, borders on the panic of 1857, and threatened to equal it in scope and disaster. It is creating apprehensions among bankers and brokers, and has created enormous depression in stocks. Railway shares were sold by the thousands, and government bonds by the millions. Trade is standing still in all directions.

Home Greaves, for Registrar of New York (Hilpin's shoes), appears to have run \$9,000 behind the ticket.

Dubuque and McGregor Railroad.

The McGregor News, speaking of the building of the Dubuque and McGregor Railroad, says: "The surveyors have commenced, or will in a day or two commence, the survey of the line of the Dubuque and McGregor Railroad—This road is certain to be built on the river shore between the two cities at no very distant day, and it will ultimately be extended to Winona, probably to St. Paul. A railroad along the river bank will not be crooked, as the inland road; it will have a uniform grade of say a foot or two to the mile when contracted; it will have a firm rock bed cheaply kept in repair, be more cheaply operated than the roads running over the high grades across the country, and will do the business for all the large river towns both sides of the river, and for the country along the river to a distance inland of 20 to 25 miles. A single track road, if in operation now along the river bank, could hardly do the business that would be offered, especially in winter."

Important Decision.

An important case, which came before the Supreme Court of the District of Columbia, involving the right claimed by the corporation of Georgetown, to inspect and levy tolls on flour shipped through that town, en route to other points, has been decided adversely to such claim. The Chief Justice, in delivering his opinion, said:

In every enterprising State and municipality, processes of power are assumed and exercised. In the case before us, a barrel of flour, starting out from the State of Minnesota or Kansas, would more than half be consumed by tolls of inspection, before it reached its destination in the city of New York, and the Constitution, in establishing the equality of States and the equality in the rights of the citizens of the several States could be made to establish their inequality in the ratio of their remoteness from the great markets of the country and its seaports.

Washington.

WASHINGTON, Nov. 7, 12:35 p.m.—The Secretary of the Treasury authorized a denial of the statement that the Treasury has sold bonds recently. Not a single bond has been put upon the market, either here or by the Assistant Treasurer at New York, within the last ten days.

Mr. McCulloch has just ordered a re-issue of ten million dollars of three per cent. temporary loan certificates, and will issue more if necessary to relieve the stringency in the money market.

Gen. Grant Leaves for Wash'n.

From Chicago Post, Friday. General Grant, the next President of the United States, with his family and staff, and several civilian friends, arrived at the Tremont House this morning at 8:30. In the evening, after breakfasting, left by the 7:30 train on the Pittsburgh, Fort Wayne and Chicago line for Washington. The following named gentlemen, including his staff, accompanied the great commander: Judge Dent, General Constock, General Haden, General Hawkins, General J. E. Smith, and J. R. Jones, Esq., of Chicago.

Ben Butler.

The World says: Butler the Beast has uncoiled himself to some purpose. He has beaten in the Essex District—the purest blood district in Massachusetts, the district where the undeffiled quintessence of Plymouth Rock resides—all the decency of the party of all the decency. The Nation was against him, the Times was against him, the Post, the whole Boston press (bail) and George William Curtis—suave to others, sour on Bea—were all against him—General Hawley, President of the Chicago Convention, took up his testimony against him. Even Grant was his enemy, backing up and endorsing the Gordon who charged B. B. with furnishing rebel supplies; and yet so sweet is the fame of this Beast to the truly loyal heart of Essex, so tender his look, so charming his ways, so fit a representative, in one word, is he of this undeclined district that he beats the decent man ten to one. Taking Ben!

—The election of Anthony A. C. Rogers, Democrat, in the Second Arkansas District, is certain. His majority will reach 1,200. He succeeds the murdered Hinds.

—The World figures Seymour's majority in New Jersey at 2,983, and Randolph's for Governor, at 4,248.

—The New York World corroborates the Republicans will have a majority in the New York Legislature, and estimates that five or six Democrats, reported elected the morning after election, have been counted out.

—John J. Smith, colored, is elected to the Massachusetts Legislature, in the Sixth ward of Boston, which also sends Harvey Jewell and Linus M. Child.

HOME ITEMS.

HERALD AGENT CARVER—G. A. Du Toit.

Time Table of M. V. R. R.

The following indicates the time for the arrival of trains at Merriam Station:

From Duluth, Minn., 5:41 P. M.
To Duluth, Minn., 2:10 P. M.
J. F. Lincoln, Supt.

Wood! Wood!!

Wood will be received at the HERALD office in payment for subscription, job work, Advertising or any other duties due the HERALD office or the publisher. Hurry up winter is setting in.

Carver County Election.

Seymour's majority, 180.
E. M. Wilson's, plurality over Donnelly 476. Over both Andrews and Donnelly, 265.

COUNTY AND LEGISLATIVE TICKET.

The following are the majorities for the successful and defeated candidates, in the different towns:

GOSE EAST—Rev. C. L. Reinke, Pastor of the Methodist Church at this place, left for Bethlehem, Penna. last Monday to attend a setting of the Synod of that Church.

We understand that it is also the intention of Rev. Mr. Reinke to procure the services of a Professor, for the Academy and to reopen the boarding house connected with the same. We hope this may be brought about, as the Academy always enjoyed a very high reputation as an Institute of learning.

Flour.—James Ellsworth has just purchased, and shipped yesterday, for Northampton, Mass., about 150 bbls of the celebrated "Chaska" brand of flour.

This make of flour stands unrivaled in the North West, and there are but two or three brands that approach it in perfection. Our Minnesota flours are fast taking the lead in all of the Eastern markets, and are sought for, not so much for their whiteness, as for their great strength and sweetness. A bbl of the best Minnesota will make nearly one quarter more bread than a bbl of the best white winter wheat flour. Purchasers who may be lucky enough to get a bbl of this Chaska brand from Mr. Ellsworth will most surely return for the second.

PERSONAL.—D. Beveridge of Chicago, Ill., the gentlemanly special agent and adjuster of the Underwriters Ins. Co., of New York, was in town several days last week, adjusting losses recently sustained by the aforesaid Company, within this County.

The Underwriters is very prompt in settling up losses and enjoys a high reputation for reliability.

Snow.—There was a light fall of snow last Monday, which with the muddy state of the roads at that time, rendered walking for pleasure anything but agreeable.

APPLES.—Lucien Warner has 500 barrels of Choice Winter Apples for sale. Call and examine his choice assortment before purchasing elsewhere.

ISS AGENT.—It will be seen from the card of A. Stoddard, Gent. Agent of the Underwriters Ins. Co., of New York, that Fred E. De Toit has been appointed local agent for said company at this place, and will hereafter be found ready for the transaction of business in said line, in one of the most reliable companies in the U. S. Rates as low as any other first class company.

CLOTHING.—Henry Young has a large assortment of Ready made Clothing on hand.

AWAY.—Col. L. L. Baxter and H. J. Peck, two of our most talented lawyers, attended a session of the District Court of Scott County, at Shakopee on Monday and Tuesday of this week.

If Samson's strength actually lay in the length and abundance of his hair, a liberal use of the famous Barrett's Vegetable Hair Restorative ought to impart many times the strength of that donkey ancient warrior, for there is no limit it will not reach if properly applied.—G. A. Du Toit, Agent Carver.

MILINERY.—Miss F. Selter has received a fine assortment of Millinery goods. Give her a call.

THE TEST OF SCIENCE.—A close analysis of the celebrated Chemical Saleratus, made by D. B. De Land & Co., at Fairport, Monroe County, N. Y., will show that it contains no matter deleterious to health, and when used in the quantities prescribed it will produce the most wholesome and nutritious bread. It is put up in red papers and sold by the popular grocers everywhere. It is better than Soda.

Carver Items.

Our Special Correspondent.

Apologies.—We ask pardon of our readers for failing to appear in these columns for the last three weeks. We have been very busy with the election and other matters which prevented us from occupying our usual space in the HERALD. We will endeavor to be on hand hereafter.

WHEAT &c.—This article has been at a low figure for the last month, ranging from 60 to 75 cents per bushel. Very little is coming in, our farmers being determined not to sell at these prices. Barley brings \$1.45 and \$1.50, rye, Corn, 50c, and Oats 50c. Potatoes bring 60c.

PERSONAL.—Gen. W. A. Gorman has been in town stopping with his son, H. L. Gorman for the last week. The Gen. came up for the purpose of taking a hunt. The party left town on Friday and up to this time had not returned, consequently cannot say what success they had. Crow river was their destination.

SCHOOL.—The District School commenced its winter term after a six weeks vacation on Monday last. Ben Winsen and wife are teachers.

IN TOWN.—We had calls last week from a host of good folks, among them from E. A. H. Reed, Deputy U. S. Collector for this Dist. (who by the way is a tip top good officer and jolly good fellow.) Capt. H. W. Holmes of Wabash, Robt. Patterson of Young America, E. S. Brown and J. S. McKnight of the New City of Blakely, on the Minn. V. R. R. Call again, gentle.

FIRST.—The brick work of the new Catholic Church, Carpenter is a work and will soon have it completed. It is indeed a fine building, and Carver can well feel proud of her Churches.—Three in number.

JUBILANT.—The Democracy of our place celebrated the election of Capt. Wilson our illustrious Rep. elect to Congress, by firing off cannons, music, and a good time generally. But O, it was a sore eye to the Democracy "Beliqu."

LECTURE.—Geo. B. Holmes of this place will lecture at the School House in Carver on Sunday next at 2 o'clock. Turn out and hear him.

PRIVATE SCHOOL.—We understand that the Rev. Victor Both has opened a private School in the building next to the store of H. R. Denny. We did not hear what the terms are.

COST.—We had the pleasure of an invitation to visit in company with Cap. Johnson the room of H. Rogers and Capt. Lambert, and it is indeed "cosy and comfortable." We noticed several peculiar pieces of "furniture" which the Dr. had "gobbled up" in a recent trip to St. Paul, which add greatly to the improvement of the room. We will call again soon.

SNOW STORM.—We had a regular "old fashion snow storm" on Monday last, cold raw and disagreeable. We hope our winter is not setting in yet.

ABOUT READY.—Holmes New Store is about ready to move into. It will be a great improvement on "Knocks old one" which has been in use some 15 years. Mr. H. intends moving his goods to his new store in about 2 weeks, when he hopes to meet his friends and customers.

HOOFLAND'S

BITTERS

HOOFLAND'S GERMAN BITTERS, AND HOOFLAND'S GERMAN TONIC

Prepared by Dr. C. M. JACKSON PHILADELPHIA, PA.

The Great Remedies for all Diseases

LIVER, STOMACH, OR DIGESTIVE ORGANS.

Hooiland's German Bitters are composed of the purest juices (as they are mostly vegetable) and are made by a process that is not only safe, but also of the most delicate and agreeable nature.

Hooiland's German Tonic is a combination of all the ingredients of the Bitters, with the purest quality of Stearns' Kidney, Orange, and other medicinal plants, and is a most valuable remedy for all diseases of the blood.

Hooiland's German Bitters. In cases of nervous depression, when some delicate stimulus is necessary.

The Bitters or Tonic are both equally good, and contain the same medicinal virtues. The former is a powerful tonic, such as Indigestion, Dyspepsia, Nervous Debility, etc., and the latter is a most valuable remedy for all diseases of the blood.

Constipation, Flatulency, Inward Piles, etc., and is a most valuable remedy for all diseases of the blood.

It is a well established fact that fully one-half of the human population are afflicted with some form of nervous depression, and it is a well established fact that fully one-half of the human population are afflicted with some form of nervous depression.

It is a well established fact that fully one-half of the human population are afflicted with some form of nervous depression, and it is a well established fact that fully one-half of the human population are afflicted with some form of nervous depression.

CHASKA, FRIDAY, NOV. 20, 1868.

THE SENATORIAL FIGHT.

The Senatorial fight has opened in earnest, and the various aspirants have taken rooms at the hotels at the Capital city, to be better able to work upon the temples of the susceptible members of the Legislature from the rural districts. The principal aspirants are Donnelly and Ramsey, but there are a host of lesser lights who are watching every crack and turn, ready to take advantage of any turn in the Senatorial tide, and glide into honors, as it were, almost unobserved by the two aspirants.

We await further development with anxiety, as the situation is capable of furnishing rich disclosures. Ramsey at present, in our opinion, leads the van guard, and will make a bitter fight. While Donnelly with his well known bull dog tenacity does not mean to let the battle go by default. Minnesota is exceedingly fortunate in having so many willing aspirants!

"Couldn't Stand the Pressure."

Admiral Farragut, on his arrival last week in New York, after sixteen months cruising, was "interviewed" by a Herald reporter. The Admiral said:

"I was everywhere kindly received, but those people in Europe are terrible fellows at the bottle. The trip is, two days passed in port compelled me to remain six days at sea to recuperate."

"You are not a three bottle man, then, Admiral?" interrogated the person to whom this remark was made.

"Oh, no, sir," he replied with a smile. "Oh, no; but I did my best to show my European friends my appreciation of their kindness towards me, and you see it necessitated my remaining at sea about two thirds of my time. Yes I was received with unusual courtesy wherever I had occasion to call in Europe."

"Oh yes, Admiral," here remarked Mrs. Farragut, her eyes sparkling with fun, "but was I not at hand to take charge of and nurse and finally bring you back to your home?"

The Admiral laughed, looked pleasantly toward where his good lady standing, and said—

"Mrs. Farragut helped me greatly."

MEXICO.

SAN FRANCISCO, Nov. 17.—A terrible cyclone swept over the country around Mazatlan, Mexico, from October 15th to the 18th, doing much damage and causing some loss of life. Whole herds of cattle were swept off, crops destroyed, and groves of trees torn up and carried away by the flood.

The French steamer Panama from Vera Cruz 13th arrived today, and brings the following intelligence: The newspapers say that Senor Romero will shortly return to Washington, and that Rivera Palace will replace him as Secretary of the Treasury.

A trembling of the earth was felt on the 3d and 6th inst., at Furubide, fourteen leagues from San Luis Potosi. Many of the inhabitants were frightened and left. The inundations caused much damage at San Juan, Bamitile and Labasco. The Mexican Congress had approved the contract for Vera Cruz and Mexico railway.

Northern Pacific Railroad Movement.

NEW YORK, Nov. 17.—A petition is being circulated through the city and receiving the signatures of many prominent gentlemen calling on Congress for financial aid to construct the Northern Pacific Railroad from Lake Superior to Puget Sound, also for the construction of a branch road via Chicago, and via Straits of Mackinac to Detroit.

The Vesuvius Eruption.

NEW YORK, Nov. 18.—The Herald's Naples special says, the streams of lava ejected by the eruption of Vesuvius, have filled and overflowed the Eusebianum and are still following the course of the eruption of 1753. Last night the upper cone discharged columns of ashes, occasionally illuminated by flashes of flame. The spectacle is magnificent and many persons are going to Naples to witness it.

HERALD AGENT CARVER—G. A. De Toit.

Time Table of M. V. R. R.

The following indicates the time for the arrival of trains at Meridian Station:

UP TRAINS: 7:40 A. M., 5:41 P. M.
DOWN TRAINS: 9:25 A. M., 2:10 P. M.
J. F. Lincoln, Supt.

Wood! Wood!!

Wood will be received at the Herald office in payment for subscription, job work, advertising or any other debts due the Herald office or the publisher. Hurry up winter is setting in.

ARTHOLOGIC.—Private affairs have occupied so much of our time this week, that we were unable to devote our usual time upon the columns of the Herald. Our friends, we are confident, will indulge us upon this occasion.

SHUT DOWN.—The Steam Flouring Mill, of the Chaska Company has been obliged to shut down. Having ground out all the wheat in store in Chaska, Farmers won't sell until they get something like its value.

BUSINESS.—The bad roads and the low price of wheat has affected trade materially. We might truthfully say that matters are at a *stagna quo* in our village.

NEW COMERS.—We are informed that new comers have made their appearance in the families of our townsman Henry Young and Fred Hilt with in the past week. Further comments unnecessary.

LAID UP.—Our large fleet of barges, are moored at the levee for winter. A good summer work has been accomplished, and they are entitled to a resting spell.

ERECTED.—The new building of Jacob Edmantrout, is being roofed, and finished otherwise. 2d street will soon present a "bold front" for two or three blocks. One year more will show it to be a far better advantage.

COUNTY BOARD.—The Board of Co. Commissioners meet on the 1st Tuesday in December, which is the 1st of December. All having business before this tribunal should bear this in mind.

THE ROADS.—The roads are in an awful condition. It is almost impossible to get around with a team. We either wait more snow, or a complete thaw out.

PERSONAL.—C. W. Potter, special agent of the old "Aetna" Ins. Co. was in town during the week on business connected with his agency. F. E. Dutt, was by him appointed local agent for Carver County.

FRESH OYSTERS.—Our friends Biting and Iltis, have and constantly keep on hand, fresh oysters, which they serve up to their customers in the latest and most approved styles. Call and see for yourselves.

NEW HOTEL AND SALOON.—It will be seen from the card of Peter Iltis in another column, that he is fully prepared to attend to the "wants" of either man or beast at his new stand. His hotel is new and presents superior accommodations to the public.

He has a fine new billiard table attached to his hotel. The best of liquors and cigars are also kept at the bar.

FAIR STATEMENT.—We publish at the head of another column the full financial exhibit between the Treasurer and Auditor. All should read the Statement. It is very lucid, and therefore easily comprehended.

STONES.—Chaska and Carver have as large and well filled stores, and as liberal merchants as are to be found anywhere within the State. Read the advertisements of the firms that appear weekly in the Herald, and by calling you will confirm our opinion.

Barrett's Vegetable Hair Restorative. We speak from experience, having given a practical trial to this renowned preparation. No other hair restorative has ever received or deserved a more universal demand than Barrett's.

THE RIVER.—The river has risen at this point some five feet within the past two weeks. It is now a respectable stream.

Notice.

Persons who have given notes to Home Insurance Co. of New Haven, for Insurance on their farm or village property, are hereby cautioned not to pay the same to any person or persons except the undersigned, who alone are authorized to receive payment, and in whose hands the notes now are.

Nov. 10th 1868.

GODY'S BOOK.—This excellent and unrivaled Lady's Book for December is before us. Its fashion plates are perfect "gems," and are alone three worth the price of the magazine. The literary articles are also of a very refined nature, contributed by some of the most celebrated writers in the Union.

Now is the time to get up clubs, and for this purpose we refer our readers to the prospectus on the 4th page for full information. Read it.

Arthur's Home Magazine.—The frontpiece of the present number is "The Elf and the Song," by Anna Bell, by J. C. Baker. Also contains the usual variety of patterns, recipes, stories, and other interesting reading. There is a sort of household almanac, containing every part of this magazine, which is one of the best low priced now published. T. S. Arthur, Phila. \$2.00.

AMUSEMENT, INSTRUCTION AND ADORNMENT.—Webster's New Unabridged Dictionary is certainly a proud monument to the literary and analytical ability and industry of the country, and in this respect its compilers and publishers deserve double commendation.

When we speak of it as a Dictionary alone, we hardly do justice to its immense affluence of topics, and fullness of definition that makes it "the poor man's library" of amusement, instruction and adornment. Sold as philosophy, exact as mathematics, an exhaustive, in brief, as a series of abridged treatises on every subject, it is at the same time as pleasant reading as the latest work of fiction, with the advantage that it is all made up of facts.

We remember nothing in the world of letters that has made such a sensation in its way as this valuable work.—New York Mercantile Journal.

Carver Items.

Our Special Correspondent.

AT HOME.—Capt George and Jas. Houghton returned home last week. Their boat had gone to the west. They will soon start out on a hunting trip for several weeks duration. Look out for game.

DENICATED.—The German Methodist Church of this place will be dedicated to Almighty God on next Sabbath, Bishop Eschig of Cleveland will be present and conduct the services.

POSTPONED.—The lecture which was announced for last Sabbath at 3 o'clock was postponed until the coming Sabbath on account of the bad weather. It will be delivered at the School House at 3 o'clock.

"SOME PUNKINS"—(The "now coming" on the Minn. V. R. R.) Give us those two old conductors an reliable gentleman, Messrs. Mosser and Williams, who always give satisfaction.

"As he grows old he may grow wise."

PERSONAL.—Henry Fabel, of Young America was in town on Monday. S. P. Stadlman, who is agent for that reliable old business house in St. Paul, Messrs. Jenks & Gordon, Whole Sale Druggists, &c., was in town last week, looking the picture of good health and beauty. Long may he wave.

Frank McKnight of Blakely was in town over Sunday, Frank was on his way to Saint Paul where he will attend the Commercial College this winter.

DISCOVERED.—We neglected to mention last week that the firm of Koch & Wildung, had dissolved, by the withdrawal of Mr. Wildung. Mr. Koch will hereafter conduct the business alone.

Fred is a good fellow and we wish him success.

SLEIGH BELLS.—We happened in the store of H. R. Denny the other day and noticed a nice lot of new sleigh bells, double and single. We advise all to call and see before purchasing elsewhere.

WOOD.—This article is quite scarce around town. The roads being almost impassable and none come in town, consequently making it worth from \$3.00 to \$5.50 per cord.

WHEAT.—Brings from 60 to 70c per bushel, but very little is brought in. We hope it will soon run up to a dollar, when we would advise our farmers to sell.

A BOAT.—The Steamer Wyman X came up from St. Paul on Saturday last. She had a small lot of freight. She is undoubtedly the last this season.

FRESH OYSTERS.—Wm. Olitschka has rec'd a nice lot of Fresh Oysters. All in want should call soon.

SEWING MACHINES.—John Snell has rec'd another lot of Singers Sewing Machines which he offers for sale cheap for cash.
